

Nelson Memorial Park Cemetery

Nelson, British Columbia

Nelson Memorial Park Cemetery is located at the top of Falls Street in the Uphill area.

The monuments were originally recorded by Henry E. and Audrey Stevenson in 1998. The information recorded included a description of the monument, the inscription, and the section within the cemetery. These records have been transcribed and indexed into CemViewer by members of the British Columbia Genealogical Society.

The CemViewer Lite program uses the following names for the various sections within the cemetery:

SECTION NAME	RECORDS	SECTION NAME	RECORDS	SECTION NAME	RECORDS
Anglican New	167	General 1	233	Knights of Pythias	176
Anglican Old	584	General 2	667	Masonic	636
Chinese	58	General 3	150	Mausoleum	30
Clan McLeary	150	General 4	107	Oddfellows	276
Cremains	191	General 5	177	Roman Catholic	333
Cremains New	53	General 6	258	Roman Catholic New	547
Eagles	139	General 7	61	Roman Catholic Old	285
Foresters	65	General 8	350	Soldiers Plot	328
		General 10	370		
		General 11	268		

It is important to correctly spell the section name when searching by location in the CemViewer program. The record counts indicate the number of people buried, with grave markers, in each section when the cemetery was first recorded in 1998.

A picture is worth a thousand words. Photographs were taken or rubbings made, in 1998, of stones that had Non-English words on them. These images have been attached to the corresponding records. Colour photographs taken in 2009 provide a more recent view of the cemetery.

A map and brochure of the cemetery are available from the [City of Nelson's web site](#). For further information about the cemetery, contact the Caretaker (weekdays in the cemetery office) or the Nelson City Hall.
